News from the Taylors

Jesus is moved with compassion for the people. During these last months we have seen Jesus in mission teams and in local believers. Whether it is communicated by building a house, fitting eye glasses or praying for the sick, the language of compassion transcends every culture.

April: Richard and Claudia worked with us to help train local Children's Ministers. Left to right: learning about using crafts, learning songs, students practice teaching children (using drama in this case)

June: Pursue Missions Team.

Pictured here: Some of the medical consultations were translated between Jacalteco, Spanish, and English. A poor family gets their roof fixed! This boy was one of over 200 to be fitted with glasses. A new place for a disabled man to live where he won't get rained on. Dr. Rod rests after a day of giving eye consultations.

Thanks, Pursue Missions and Church on the Rock (Lubbock, TX)! You've now sent us six mission teams. Many of the team members have been here several times. Many lives have been touched by a demonstration of the love of God.

Early July: Resurrection Life Church (Michigan) came for a few days thanks to ASELMI ministries (Bible Institute ministry that we are part of). Pictured here: putting a new roof on a needy family's home, prayer at altar call during a youth rally, a local church performs a drama skit during another rally.

Jul - Aug: Grace Fellowship team from Arkansas. They finished the building of and painted a house for a needy family, visited three schools, taught local Christians about healing ministry, held evangelistic crusades, visited churches and went door-to-door praying for the sick. Many lives were changed and many people accepted Christ as Savior!

Pictured here: Team members painted walls in a local parsonage. This puppet skit was one of many fun activities when the team visited an elementary school. A lady cries as she thanks God for healing her from a urinary tract infection after being prayed for in her local church.

Pictured below: Teenagers at a village junior high come forward to begin their relationship with Jesus. The team was very personal and took time with each one as they prayed for the healing of hundreds during crusades and church worship services. Praying in the homes of the sick took the team through beautiful back trails.

RODRIGO'S TESTIMONY

Rodrigo (left) attended a healing ministry training offered by the team. He was also healed! He was one of the local believers that went to visit & pray for the sick in their homes with the team later in the week. He gave his testimony in home after home showing people that he no longer needed a cane and that he can now run and jump. Rodrigo gave his testimony during one of the crusades. He continues to visit the sick with others from his local church as part of the healing ministry that they now have! May God prosper this ministry!

An awesome video of Grace Fellowship's trip to Guatemala entitled 'Jacaltenango mission 2011' is available on You Tube: http://www.youtube.com/watch?v=4SsV_9vRSQA

We appreciate the contributions which help us to be here in Guatemala serving the Lord and the Jacalteco people. If you would like to have a part in helping with this ministry please mail your check to:

NLAI, PO Box 35857, Houston, TX 77235-5857.

Our mission work in Guatemala is a ministry of New Life Advance Int'l. NLAI does retain an administrative fee to help with the services that it provides us. Please contact us with any questions: tonyguat@gmail.com or phone 011-502-5883-3419
